Respect & Responsibility

Aim to increase volume and competitive advantages through our innovation

Production capacities expanded, while keeping manufacturing costs under control

Cost Leadership
Expansion

- **Liquid chocolate capacity** utilization has improved, from end of last year now at 90% (target 82-85%). Focus on eliminating capacity constraints in Western Europe

- **Cocoa capacity** has significantly increased after the acquisition, now with headroom for future growth (target 90-92%)
- **Manufacturing costs** per tonne on a like-for-like basis: -0.8% vs prior year

* Installed capacity, after integrating the recently acquired cocoa business from Petra Foods

Strengthening our position in Sustainable Cocoa

Sustainable Cocoa

Full acquisition of Biolands: direct sourcing business model

- ▶ Barry Callebaut acquired a 49% stake in 2008 and acquired the remaining 51% Feb 18 2014
- ▶ Strategic step to increase our **direct sourcing activities** and with the aim to replicate the model in other countries
- ▶ Biolands is one of Africa's largest exporter of certified organic cocoa, working directly with ~ 70,000 farmers equivalent to ~8,000 tonnes, present in Tanzania, Sierra Leone and Côte d'Ivoire

Our key focus areas for 2013/14

- ▶ Integrate Petra Foods cocoa business and strengthen our position in cocoa powder
- ▶ Enhance profitability
 - ▶ Continue product margin improvement
 - ▶ Keep supply chain and fixed costs under control
- ▶ Full implementation of Project Spring
- ▶ Strengthen leadership in sustainable cocoa
- ▶ Accelerate talent management programs and succession planning

Integration of acquired business well on track...

Organization is in place

- **Ensuring the best balance between BC and ex-Petra resources on key positions** (Regional commercial organizations and global functions)

Commercial model has been implemented

- **Combined cocoa/chocolate sales teams and account allocation**, we significantly increase our reach towards our customers

Global supply chain is being optimized

- Leveraging on our increased factory footprint. **Optimizing the use of each factory, while limiting transportation costs**

...and identified synergies confirmed

Systems are being implemented

- **Streamline the business, starting up a project** to structurally identify what is needed from a process and systems perspective for the new/combined organization

Synergies are identified and tracked

- **Identified and confirmed synergies**, and put a **quarterly tracking in place** (project charters, clear owners, follow-up calls, etc.)

Culture & people

- **Key talents identified as well as the cultural differences. Constant communication** to keep out people high on the attention list

Writing the future
