

This mill list represents Barry Callebaut's efforts to increase transparency in our palm oil supply chain. Based on traceability information self-declared by our suppliers and verified by Earthqualizer, Barry Callebaut achieved 98.4% traceability to mill (TTM). We will continue to work with our suppliers to close the gap and strive for 100% TTM. It is our intention to share accurate and credible information and invite any stakeholder who may have reliable data that is inconsistent with our own to share it with us in order to validate it and make any necessary corrections.
